

Automatic Chemical Feeders

CHLORINATOR (SLOW DISSOLVE TRI-CHLOR ONLY) AND BROMINATORS

Hayward automatic chemical feeders are designed to provide a reserve of sanitizer (either slow dissolve Tri-Chlor or Bromine) to meet the requirements of commercial and residential pools and spas. Selections are available for on-line and off-line installation convenience. Hayward chemical feeders accommodate a variety of tablet and stick sizes and work automatically with the pool water circulation system.

Features:

- Precision molded tank for durability and long life
- Easy access, thread-in one piece cover provides dependable sealing and access for adding tablets or sticks
- Bottom-to-top water flow for efficient circulation of concentrated, sanitized water
- Dial control value lets you easily adjust the rate of feed
- Drain plug on commercial model allows for quick servicing
