

Gratings for Swimming Pool and Garden Drainage

U-GRATING

U-GRATING

H - GRATING

Product Features

H-Grating is mainly used for swimming pool drains, house perimeter drains etc. Some of the product highlights include the following –

- It is made from durable, tough and non-skid material - ABS (Acrylonitrile Butadiene Styrene)
- They are popular because plastic does not rust
- The standard length of the grating is 300mm. However, H-Grating can be cut to specific lengths between 230mm - 299mm
- H-Grating can be fabricated into 30°, 45°, 70°, 90° etc.
- H-Grating comes in beige and grey colours. White, Black, Green and Brown are the other colours available upon request
- Fits on to curve drains

Specification
