

**HAYWARD®**

 SP-1070 Series  
with Dual 1 1/2" or 2" outlets.

## Skim-Master™

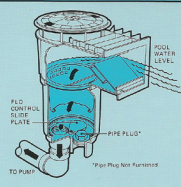

The Skim-Master is a versatile, large capacity automatic surface skimmer for residential or commercial pools. It features durable corrosion-proof, uni-body construction, adjustable deck collar and access cover, self-adjusting 8" weir, large debris basket and multiple plumbing connections for easier installation. The optional Float/By-Pass Valve provides a main drain-through-skimmer system plus an automatic safety by-pass for low water conditions.

# Automatic Skimmer

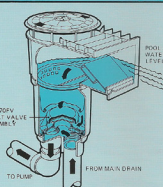

## Skim-Master™ AUTOMATIC SURFACE SKIMMER

### BASIC SKIMMER UNIT

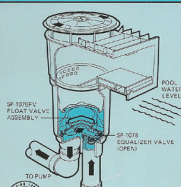

Standard unit, with single pump connection, provides regulation of water flow by Flo-Control slide plate. When two or more skimmers are installed on a common suction line, flow is balanced by adjusting Flo-Control plate.

### SKIMMER WITH MAIN DRAIN CONN. AND FLOAT VALVE/SAFETY BYPASS

Skimmer with SP-1070FV Float Valve provides proportioning of skimmer surface water and main drain flow and prevents possible pump air lock. If water level in the skimmer drops, float automatically closes and diverts all flow to the pump and the main drain.

### SKIMMER WITH EQUALIZER VALVE AND FLOAT VALVE ASSEMBLY

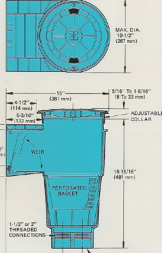

Skimmer with optional SP-1078 Equalizer Valve and Float Valve assembly. If water level drops below skimmer opening, float snaps shut and valve opens and water is drawn through equalizer line to pump. Valve closes automatically when pool water level is restored.

## Skim-Master™

The SP-1070 Series Skimmer is available with 1 1/2" or 2" threaded or socket connections for easy system plumbing.

MODEL NUMBER	PIPE SIZE	DESCRIPTION
SP-1070	1 1/2"	ABS Body, adjustable cover (deck) collar, Round tamper-proof cover, basket, weir, Flo-Control plate. Dual outlets have threaded internal connections for pressure testing.
SP-1070S	1 1/2" SKT.	
SP-1070-2	2"	
SP-1070-2S	2" SKT.	
SP-1070FV	—	Float Valve/Bypass Assembly
SP-1078	—	Equalizer Valve
SP-1070-2FVE	2" SKT.	Skimmer complete with Float Valve and Equalizer Valve (NSF Listed)

## Skim-Master™ Skimmer

Hayward 1070 Series Automatic Surface Skimmer

■ SP1070 Series Skim-Master™

■ SP1070 Series Easy to Tile Square Lid Option

The 1070 Series Skim-Master is a non-corrosive, large capacity automatic surface skimmer for residential or commercial pools. Unlike lesser quality skimmers, Skim-Master features one-piece ABS molded construction with NO GLUE JOINTS to assure maximum strength and trouble free performance.

The Skim-Master features a self-adjusting 8" weir with stainless steel spring for added longevity, dual outlets, Flo-Control slide plate, large capacity basket and threaded internal connections for pressure testing.

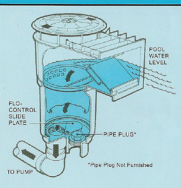

The Skim-Master is available with a tamper-proof round or square lid with a variable adjustable collar. An optional Float Valve and Equalizer Kit is available for NSF commercial application requirements.
